Technology Internship
Point72 Asset Management, L.P.

Point72 Asset Management (“Point72”) is a global private asset management firm managing the assets of its founder, Steven A. Cohen, and employees. Point72 focuses primarily on discretionary long/short equity investing and makes significant quantitative and macro investments. The firm is headquartered in Stamford, Connecticut, and maintains offices in Tokyo, Hong Kong, Singapore, London, and New York.

We are seeking undergrad students to intern with our Technology Development groups. This internship is ideally suited for candidates that like fast-paced environments and who are looking to broaden their skill set at an accelerated pace. The individuals will have exposure to senior technology development managers and will learn from seasoned hedge fund professionals.

We are looking for mature, bright, articulate and dedicated computer science, engineering, and mathematics majors to join our team. If you are interested in joining a world-class investment management organization that operates in a fast-paced, dynamic environment and rewards talent with recognition and increased responsibility, then this is the right opportunity for you.

Technology Development teams:
The Technology Development teams have professionals located in Stamford, New York City, and Hong Kong and provide all application development and support for business areas including:
- Trade Execution and Portfolio Management
- Research and Risk Management
- Operations, Finance, and Portfolio Accounting
- Human Resources and Payroll

Technology Platform opportunities:
The Development teams create and support a wide variety of software development and technology platforms. There are many opportunities to create innovative improvements and additions to the firm’s technology platforms which include:
- Big Data research, analytic, and warehouse platforms
- Open Source based and Agile development methodology tools and processes
- Re-invent applications using HTML5 technology platforms
- Innovate high volume trade processing onto standardized messaging and data processing platforms
- Create applications on the latest Cloud based solution platforms

Point72 career advantages:
- Exposure to multiple disciplines across the firm including Trading, Finance, Operations, Compliance and Technology
- Intensive mentoring by hedge fund professionals dedicated to investing in your success
- Interaction with senior-level professionals
- Opportunity to grow with Point72 in a full-time role after graduation

Desirable candidates:
- Have demonstrated previous academic success as reflected in a minimum GPA of 3.2/4.0
- Can manage multiple tasks and deadlines in a fast-paced environment
- Possess a strong attention to detail
- Have strong analytical, writing, verbal communication and technical skills
- Have a commitment to acting with professionalism and integrity at all times
- Demonstrate an ability to work cooperatively with all levels of staff

To apply, please submit your resume at www.point72.com/careers/
